Notes: I, the analyst, certify under penalty of perjury, under the laws of the State of California, that this analysis was performed during the regular course of my duties as a Forensic Alcohol Analyst, pursuant to Title 17 of the California Code of Regulations.

The reported analytical results for each sample were initially recorded and memorialized as the last step of chromatographic analysis which was initiated on [REDACTED]. Analytical results of calibration standards, blank samples, known controls, and forensic case samples were reviewed by the analyst, prior to transfer by the analyst's hand, into the Laboratory Information Management System on the date listed above as 'Analysis Date.' This is the effective date of the completion of analysis, and is the same date this report was drafted by this analyst, and is documented below, under the analyst's electronic signature. The analyst's electronic signature is password-protected, and is unique to this analyst.

This report was submitted for Admin and Tech Review to another qualified analyst, who reviewed all paperwork pertaining to all calibration standards, known controls, blank samples, and forensic case samples involved in this analysis.

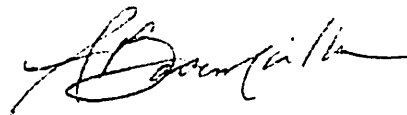

The Admin and Tech Reviewer verifies that the analytical work and documentation associated with each sample analyzed is in accordance with laboratory policies and procedures, that the analytical procedures and results were achieved in compliance with the regulations set forth in Title 17 of the California Code of Regulations, and that the equipment used in arriving at the results was shown to be in accurate working condition at the time of the analysis.

The Admin and Tech Reviewer completes their review by placing their password-protected unique electronic signature below. The date under their electronic signatures is the date of the completion of their review of this forensic case.

Executed at the City of Los Angeles, Los Angeles County, on the date of the analyst's electronic signature.
